RG104 E-1 Box 146

Plainfield. N. J. June 25. 87

James P. Kimball. Esq.
Director of the Mint.

Dear Sir:

I submit as designs for the silver coins of the United States the following devices, which may be uniform on all the silver coinage of the Government.

On the Obverse side, the profile of Columbia with "Liberty" inscribed upon the cap, surrounded by a circle of thirteen large five pointed stars, spaced proper distances for the insertion of as many smaller stars (say six pointed) as there are additional States at time of coinage.

On the Reverse side, a head of the American Bison surrounded by wreath of oak or pine.

Very Truly
O. B. Leonard.
